

FROM RAINHILL TO LIVERPOOL

**RAINHILL STUDENT CHLOE HARTLEY IS
NOW STUDYING PHARMACY AT
LIVERPOOL JOHN MOORES UNIVERSITY.**

We spoke to Chloe before she left for University about her time at Rainhill and her plans for the future...

How did you feel on your first day as a Year 7 pupil?
I felt really excited to be starting Rainhill but also a little nervous too!

What clubs and activities did you do whilst at school or Sixth Form?
I have been involved in a lot of varied clubs over my time at Rainhill. These have mostly been sports clubs, like gymnastics, netball and exercise classes. I have also been part of the dance company run through the Arts Academy. I also went on Maths trips to Barcelona and Madrid.

Why did you choose to study at Rainhill Sixth Form?
I knew that the Arts Faculty were second to none and I love performing and dance so I really wanted to study in a faculty where I knew I was going to get top class teaching and support.

Who were your favourite members of staff and why?

Mr Rimmer – He was very helpful and passionate about his job as a teacher. He was always willing to give up his time to help us.

What was the highlight of your time at Rainhill Sixth Form?

The New York trip. We got to see a lot of tourist places in New York but then did a lot of trips to the theatre and even workshops whilst we were there. That truly was an inspirational experience.

What advice would you give to Rainhill students?

Get involved in the clubs and activities.

Why did you choose your course at University?

My course leads straight into a careers after education – a good and secure job. I also wanted to stay local but studying in Liverpool means I can also move away. I have also had the pharmacy course recommended to me by other people I know who studied there so I know it's good.

How did you feel when you knew you had got confirmation of your above choice?

Excited – a lot of my friends are going to Liverpool so I can be around them and live with them in the second year too!

How did your friends and family react when they found out you got in?

Excited and pleased for me.

What are you most looking forward to at University or within your related progression route?

Being more independent in my studies and also in moving away and having to take care of myself.

What are your long term career plans?

I aim to be a pharmacist in a hospital. I already have experience in a community pharmacy and I am training to be a pharmacy advisor at Boots.
