

FROM RAINHILL TO BRADFORD

**RAINHILL STUDENT JACK JOHNSON IS NOW
STUDYING A DEGREE IN FILM AT THE
UNIVERSITY OF BRADFORD.**

We spoke to Jack before he left for University about his time at Rainhill and his plans for the future...

How did you feel on your first day as a Year 7 pupil?
I felt nervous on my first day of coming to Rainhill.

What clubs were you involved in at Rainhill?
I have been involved in Basketball – I play each week and really enjoy it.

Why did you choose to study at Rainhill Sixth Form?
I enjoyed the teaching at GCSE level, I thought it was a good school and good teachers. I wanted that to carry on in my Sixth Form life.

Who were your favourite members of staff and why?
I liked Miss Critchley and Miss Marshall – They were great teachers and helped me to learn lots. I want to go on and study film and media so having a teacher like Miss Critchley helped a lot.

What was the highlight of your time at Sixth Form?
I really enjoyed my trip to Peru with the World Challenge in 2016. I learnt a lot and had experiences I never thought I would have. It will stay with me forever!

What advice would you give to Rainhill students?
I would tell the prospective students to start to study really early on. Use your frees! You have up to 10 hours free a week in Sixth Form so use this time to study and start to get into good habits early on. If you use the time you have in college, you will not have to use as much outside to study.

Why did you choose your course and higher education establishment?
I chose the course at University as it is something I enjoy and hope to make a career from. I chose my university as it is known to be a good area and good university for my course.

How did you feel when you knew you had got confirmation of your above choice?
Excited to be into the University I wanted to be in, and doing the course I wanted to do, which will help in my career in the future.

How did your friends and family react when they found out you got in?
They were happy for me.

What are you most looking forward to at University or within your related progression route?
I am looking forward to starting somewhere new. I am also looking forward to specialising further in my subjects.

What are your long term career plans?
I am not 100% sure at the moment but I hope to work in the film industry in some way.
